

# MacCaption™ Player

## How to view the sample QuickTime video

Thank you for your interest in our MacCaption Player software. Please read below to receive instructions about how to view the QuickTime video downloaded with this document.

**Physical switches:** With MacCaption Player viewers are not required to use a mouse and keyboard to select captions or subtitles like in QuickTime Player. Instead, MacCaption Player comes with a special 2 button interface for the public. 1 button to turn captions and subtitles on/off and the other to toggle between caption languages. This special 2 button interface provides a complete turnkey solution for museum patrons.

**Sample video:** In the sample video that you have downloaded from the CPC website you will be able to enable subtitles for the hard of hearing and international viewers. The QuickTime .MOV file contains 3 selectable subtitle languages. To view the subtitles, simply open the .MOV in QuickTime Player and go to top menu View>Subtitles> and select between English, Spanish, and Japanese.

Below is more information regarding the MacCaption Player software.
